COUNTERTECHNIQUE® CLASS AND CREATIVE WORKSHOP

27 - 30 nov 2023

Countertechnique® is a movement system to help the dancer think about the dancing body, focusing on the process of incorporating information into action.

The technique provides tools for body and mind to deal with the demanding dance practice of the 21st century. Within a clear structure of exercises the Countertechnique® class thoroughly prepares the body for rehearsal and performance, enabling dancers to move bigger, more fluidly and more spatially, while becoming stronger and more flexible. Countertechnique® was created and developed by Dutch choreographer, dancer and teacher Anouk van Dijk, former artistic director of Australian dance company Chunky Move.

Each day we will work on a theme of the day. This will be introduced in the class and then further explored in the workshop part through improvisation, games, creative tasks and compositions in groups and individually. Developing and expanding your own creative voice in a generous and joyful dialogue with the other participants. The themes will be inspired by some of the principles and tools of Countertechnique® and draw from fundamental knowledge dancers rely on in their work as well as my huge interest in the use of voice and breath.
