

MÖTE MED KOREOGRAF - ett möte på golvet

2 - 3 mar 2026

Within a two-day workshop, Dalija will share her choreographic, movement, and performative practice, Sensuous Performative Ecologies, developed for babies and children with diverse developmental profiles.

The workshop focuses on exploring movement and dance in relation to perceptual, relational, and attentional strategies that foreground affective transmission, presence, and responsiveness.

Participants will explore strategies essential for performing in immersive, dynamic environments, and approaches for attuning movement scores in real time to diverse perceptual modalities and physical encounters. The practice ethos challenges hierarchical and binary distinctions inherent in performing arts formats for children, and declines ableism and ageism. It is designed to foster equitable relationships that honour the agency and individuality of children.
