

FELDENKRAIS®

16 - 20 aug 2021

The Feldenkrais Method® is learning to learn from ourselves to become connoisseurs of our possibilities.

Feldenkrais® guide you to play with some unusual movements to see if there are strategies of moving that are easier, more effective, more wholesome, and more pleasurable. See how by refining the ability of your nervous system to manoeuvre your skeleton, you're refining the very process of taking efficient action. More understanding and increasing your neuromuscular possibilities can be helpful for injury prevention, performance enhancement, and artistic vitality. Would you have more sensation to think with, more thoughts to feel with, more feelings to sense with, or perhaps your internal language takes on another dynamic?

A good shot of awareness before the following contemporary ballet class...

The classes are made possible through Dansalliansen and Danscentrum Syd and open to professional freelancedancers and due to the pandemic you have to pre-registrat at this link
