

GAGA, IMPROVISATION AND GAGADANCERS METHODICS

25 - 29 nov 2019

A workshop aiming to explore and experience the research of Gaga to deepen the listening to one's own physicality and scope of sensations. A toolbox to support one's dance within various improvisation tasks and scores of solo, partnering and group work.

The Gaga movement language originated from the belief in the healing, dynamic, everchanging power of movement, developed by Batsheva Dance Company's artistic director Ohad Naharin.

The method offers a framework for discovering and strengthening the body, for challenging our movement habits and exploring the endless possibilities in a gentle way while lightening our senses and imagination.

The work improves instinctive movement and enhances the ability to use our energy within a wide range of different textures and qualities. Gaga offers an experience of freedom and pleasure, each one with himself together with others.

Workshopen sker i samarbete mellan Dansalliansen och Danscentrum Syd.
